Project Information

Name of Project *

[   ]

Site Location *

[   ]

Abstract of the Project *

An abstract of the project describing the concept intention, also supported by a statement outlining the purpose for which the project is intended.

Function *

Describe how the design positively contributes to making the project work well for the intended use, including for its client, users, and the public at large.

Technical *

Describe how the concept project is technically viable and provide technical solutions are proposed to meet the project's objectives.

Environmental Consideration

Describe what active and passive measures are being proposed through the design to assure more efficient use of energy and minimise negative impacts on the ecological environment. and how will the design respond to climatic challenges.

Innovative application *

To what extent does the project exhibit originality in concept and thinking, enabling a fresh approach in design and working to improve existing practices, while pushing material and conceptual boundaries. Additionally, how were users or the community involved in the design process, and was there an element of public participation.

Uploads

Upload a maximum of 10 drawings, sketches, and diagrams showing the whole design process of the project. The name of the entrant should not feature on the drawings or diagrams. *
