Residential Architecture Award Form

Submission Information

An EARLY BIRD offer is applicable up to Friday 28th February 2025. For the early bird period the submission entry fee is that of €100 for the first category submission and €65 for the additional category. A discount is applied to the cart upon checkout.

After this period, each project that is submitted will be charged an entry fee of €140. If the same project is resubmitted in a second category, then the fee for this additional category will be €90.

A project may only be submitted in a maximum of two categories. If you choose to submit a project in two categories, then you will need to fill in two separate forms, since the fields in each category submission are not all identical.

Will you be submitting / have you already submitted this project in another category? *

○ Yes

○ No

Project Information

Name of Project *

Site Location *

Planning Authority Permit Number *

Completion Date of Project *

Date Format: DD / MM / YYYY

Type of residential dwelling *

| Click here to select other category | ⌄ |

Abstract of the Project *

An abstract of the project describing the design concept intention, also supported by a statement outlining the purpose for which the project is intended.

Form *

Describe how through its materiality, shape and detailing, the residential project is clearly recognizable and relevant through its response to its site, audience and intent.

Function *

Describe how the design positively contributes to making the project work well for the intended use, including for its client and user. List what indoor/outdoor amenity spaces have been included to ensure a quality of life for its occupiers.

Impact *

Viewport (Width : 2880px , Height :1366px)

Describe how the building has left a positive impact on its context and its relationship to its surroundings.

Environmental Consideration *

What active and passive measures were taken to reduce the project's overall environmental impact.

Innovative application *

Describe how the project have originality of concept and thinking and taken a fresh approach. How does the project works to improve existing practices, material and conceptual boundaries.

Would you consider your project for a sustainability award? *

○ Yes

○ No

Upload any evidence through various metrics and design elements, including the use of energy-efficient systems, incorporation of renewable materials, passive design strategies for climate control, implementation of water-saving technologies, waste management plans during construction and operation, biodiversity conservation efforts, and certifications such as LEED or BREEAM. Additionally, life cycle analysis and community engagement in the project's development can further highlight its environmental, social, and economic sustainability. *
